## **A Study Investigating Experiences of Radiographers During The Covid 19 Pandemic**

We are inviting Radiographers to submit their reflections on their experiences of working diagnostic radiographers during the Covid 19 pandemic

The aims of this study are to investigate and describe the experiences of radiographers working in the Europe during the Covid 19 pandemic . In addition, it is anticipated that this study will contribute to critical scholarship in the field of Irish health care history.

The objectives are to capture and examine the experiences of radiographers in the Europe with particular reference to the Covid 19 pandemic and their radiographic roles, and to write an authoritative history of the role of the radiographer in Europe through one or more publications.

Please contact [RadiographyCovid19.Europe@ucd.ie](mailto:RadiographyCovid19.Europe@ucd.ie) for further information.
